Homes, SNF

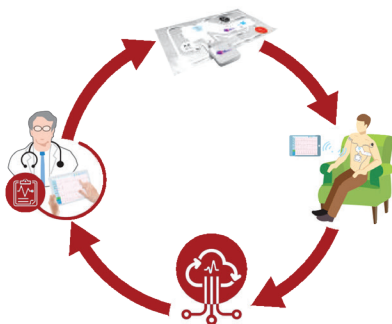

Home Care

Remote Area

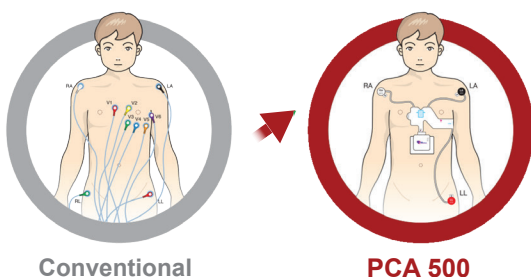

How PCA 500 helps your practice & patients

Cost-Effective

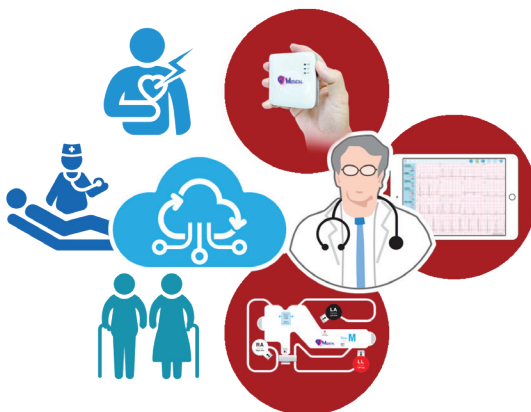

- Reduces unnecessary ER visits
- Mitigates errors and costs from wrong lead placement
- Provides timely diagnosis and management decision

Time Efficient

- Performs a standard 12-lead ECG in 3 minutes
- Saves 30% procedure time
- Streamlines office workflow
- All ECGs are managed in the cloud with easy EMR integration

Better Quality of Care

- Simplifies lead placement to reduce errors and variations
- Easily applied by patients at home, requiring minimal training
- Enables remote care and monitoring
- Provides timely care anytime from anywhere
