12-lead PCA 500 detects

✓	Arrhythmia	✓
✗	Heart Attacks (STEMI)	✓
✗	Long QT Syndrome	✓
✗	Electrolyte Imbalance	✓
✗	Adverse Effects of Medications	✓
✗	Worsening Heart Failure	✓
✗	Pericardial Effusion	✓
✗	Cardiomyopathy	✓
✗	Myocarditis	✓
✗	And 30+ more conditions	✓

Monitor Your Heart Health

Detect heart abnormalities with a 10 second ECG recording. Be proactive in your healthcare.

Clinically Validated

PCA 500 is the only FDA-cleared 12-lead ECG for home use. Proven as accurate as hospital ECGs.

Time Efficient

Wireless electrode strip enables you to self-administer an ECG in less than 5 minutes. Simply send the ECG to the cloud so your physician can see it easily.

TAKE CONTROL OF YOUR HEART HEALTH WITH PCA 50

PCA 500 is the world's first 12-lead ECG that allows you to manage your heart condition at home.

PCA 500 is a prescription based device. Please consult your doctor to decide if PCA 500 can help you manage your disease or symptoms.
