

CARDIOTECH GT-10

PATIENT MONITOR

FEATURES

- Large high resolution color screen
- No fan design
- Water-proof & dust-proof keypad design
- Pacemaker detection
- Electrosurgical interference proof
- Defibrillation protection and defibrillation synchronization
- Pitch tone
- ECG algorithm optimized for arrhythmia detection, pacemaker detection, and HR measurement
- SpO2 algorithm with outstanding motion resistance and low perfusion resistance performance
- NIBP algorithm optimized for cardiac patients, hypertensive patients, and neonatal patients
- Large storage capacity
- Nurse call function
- LAN connection with DHCP support
- Optional built-in Wi-Fi
- Optional touch screen
- Bi-directional communication with the central station
- HL7 support
- VGA output

- **Standard Parameters:** 3/5-lead ECG, RESP, SpO2, NIBP, PR, 2-TEMP
- **Optional Parameters:** Nellcor OxiMax™ SpO2, 2-IBP, Respiration CO2
