Thermal High Disinfector Line

Intuitive User Experience
A full control & all-in-one operation
from a single touch panel

Chamber Volume
A 65 liter chamber
for high capacity washes

Connectivity
USB/Printer for
data communication

TIVA2 Washers

Dental and medical practices need strict cleaning, disinfection, and sterilization of instruments before they can be used on patients. Thermal High Disinfection employs moist heat above 194° for a minimum of 5 minutes to kill bacteria and viruses in the washing phase. The TIVA2 line provides thermal high disinfection to achieve a complete decontamination cycle and advanced control system with an easy to use interface.
