

VS 8A Spot Check Monitor

VITAL SIGNS MONITOR

Features and Benefits

- **8" High-Definition Display:**
Provides a clear, easily readable view of patient vital signs to support quick clinical assessments
- **Spot Check Monitoring Mode:**
Delivers comprehensive vital signs capture, including non-invasive blood pressure (NIBP), SpO₂, pulse rate, and temperature
- **Patient-Specific Profiles:** Allows easy selection of adult, pediatric, and neonatal size settings to ensure accurate monitoring across distinct patient populations.
- **TrueBP™ Technology:** Measures blood pressure quickly and comfortably on inflation in approximately 15 seconds
- **BP Averaging Protocol:** Calculates an average blood pressure over a specified time and number of measurements to help reduce white coat hypertension
- **Pulse Oximetry:** Available SpO₂ technology includes Masimo SET® (standard) or Nellcor® Oximax®
- **Mindray TrueTemp™ Thermometry:** Performs fast and precise temperature measurements, delivering oral, rectal, or axillary readings with oral readings in just four to six seconds
- **EMR Integration:** Uses Serial DIAP and HL7 communication protocols to provide seamless data transfer directly to the electronic medical record
- **Versatile Mounting Options:**
Adapts to various clinical spaces with configurations that include an easy-to-maneuver rolling stand and wall mounts with quick-release brackets
- **Three-Year Warranty:** Includes a standard three-year warranty to guarantee device durability and protect your investment

Simplifying Care, Elevating Confidence

The VS 8A Spot Check Vital Signs Monitor delivers simplicity, consistency, and unparalleled value, tailored for low acuity clinical environments. This easy-to-use device streamlines workflows and enables caregivers to capture essential patient vitals quickly and confidently without the hassle of navigating complex menus. It features a simplified user interface that requires minimal training while providing fast, accurate results across core parameters, including non-invasive blood pressure with TrueBP on inflation, SpO₂, pulse rate, and Mindray TrueTemp predictive thermometry. Built to fit seamlessly into ambulatory care settings, the VS 8A adapts to your specific needs with flexible rolling stand and wall mount configurations. Ultimately, its durable design easily withstands routine cleaning and disinfection, empowering your staff to maintain consistent, safe, and efficient care across locations.
